SunContainer Innovations - Discover how cutting-edge battery systems are reshaping energy management across industries - and why Vienna's innovations matter for your business.

We provide our customers with state-of-the-art battery technology solutions for a wide range of mobile and stationary applications. Our patented immersion cooling architecture enables unsurpassed

The Companies to Watch: Our Curated List of Battery Storage Innovators The following list presents a curated selection of leading companies

We are the only energy storage company offering solutions encompassing short to long to ultra long duration needs with

Sunlight PowerCharge Ltd., headquartered in Vienna, Austria, is a distinguished leader in the development and deployment of innovative, large-scale energy storage systems throughout Europe.

Meet Emerging Battery Storage Startups to Watch in 2026 We hand-picked startups to showcase in this report by filtering for their technology,

About Vienna Energy Storage: Specializing in modular battery systems for renewable integration, grid services, and industrial power management. Our UL-certified solutions serve clients in 35+ countries

The total inventory of photovoltaic battery storage systems in Austria therefore rose to 11,908 storage systems with a cumulative usable storage capacity of approx. 121 MWh. What are energy storage

CellCube is a leader in sustainable energy storage, specializing in vanadium redox flow batteries (VRFBs) that allow for efficient and clean storage of large electricity capacities for 4 to 24 hours.

Vienna performance battery storage company

Innovative storage technologies and new fields of application for the use of energy storage systems are being researched and demonstrated in practical operations

The company have combined their battery technology with the systems and expertise of their partners to create holistic and comprehensive energy

NGEN commissioned Austria's largest battery energy storage system (BESS). It installed it in record time - just seven months. Located in Furstenfeld,

The company specializes in high-capacity lithium-ion battery systems tailored for various applications. Their flagship products, Gridstack and Sunstack, provide grid-scale energy storage and optimize

GLASHAUS POWER - Summary: The Vienna Photovoltaic Energy Storage Power Station represents a cutting-edge integration of solar energy and battery storage technology. This article dives into its

Discover next-generation battery systems proudly made in Austria. We capture, store, and supply electric energy when and where it's needed most. We use battery storage to add balance, resilience,
